Subject: Traffic Light subgroup call

To those of you who may have called in for a conference call this morning, I apologize for any confusion regarding the lack of a call. It was my understanding that the subgroup would not have another call until Section 8 was revised by Bill Rish and Ed Steele according to the new titling "Evaluation and Response". I will discuss this with Ed Steele and let you know if a call will be held next Friday. Again, my apologies for any confusion.

**Call for Abstracts for the GWPC
Annual Forum has been extended
to May 29th at
